How it Started

"When I first pursued my business full-time, I struggled to find successful entrepreneurs that looked like me. The speakers I saw on stage lacked diversity, and I wanted to see how women of color broke through those barriers!

In 2019, I approached Thinkific with the idea of hosting a conference that amplified the voices of these entrepreneurs. We hosted the first Think in Color and knew immediately that our summit was giving other women the confidence and inspiration they needed to start their business."

XayLi Barclay, Co-founder & Host of Think in Color
